

Employment First logic model

AimHire Job Placement Program

Mission: empower people experiencing or at risk of homelessness to obtain stable employment and housing

Assumptions: all participants are employable and motivated for work and housing; open-door policy with individualized services is best; those in need of income should become employed quickly; there should not be a time limit on services

External Factors: policies regarding employment and housing; number of open employment opportunities; health of economy; changes in employment landscape and HR practices; availability of community resources and benefits; availability of affordable housing
