

Housing First Logic Model Neighbors First Families PSH Program

Mission: empower people experiencing or at risk of homelessness to obtain stable housing and rebuild their lives

Assumptions: those in need of housing should become housed quickly regardless of circumstance such as sobriety or mental health condition; services should be individualized based on family needs; heads of household are able to best support the needs of the family when in stable housing

External Factors: availability of funding; severity of residents' mental health condition, substance dependency, behavioral health, or co-occurring disorders; biases from community and landlords towards participants; availability of affordable housing for families; varying parenting styles; federal and local policies regarding housing programs; availability of community resources and benefits
